

## Features

- Snap element for sheet-metal cut out
- practical and easy handling
- Reduction of material and assembly costs
- For all standard Han® B inserts and terminal block connectors
- Space saving

Connector inserts and terminal block connectors can be fixed on elements for panel mounting with standard insert mounting screws.

High mechanical security of the fixings.

Alternatively, Han coding elements (code pins or guide pins and bushes) may be used.

Connector assembly into the panel (sheet-metal) cut out or two parallel mounted rails is possible from mating or termination side.

## Technical characteristics

Min. retention force in sheet-metal cut out	
- Mating	
without guiding	250 N
with guiding	400 N
- Unmating	
without guiding	400 N
with guiding	500 N
Vibration resistance	IEC 60 068, part 2-6 BN 74018
Resistance to shock	IEC 60 068, part 2-27 BN 74018
Tightening torque of fixing screws/ coding elements	0.8 Nm
Material	zinc die-cast
Limiting temperatures	-40 °C ... +125 °C

## Range of delivery

Range of delivery comprises:

2 panel metallic mounting parts sufficient  
for one insert or terminal block connector
