

## PCB terminal block - GMKDSN 1,5/12-7,62 - 1707137

Please be informed that the data shown in this PDF Document is generated from our Online Catalog. Please find the complete data in the user's documentation. Our General Terms of Use for Downloads are valid (<http://phoenixcontact.com/download>)

PCB terminal block, nominal current: 16 A, rated voltage (III/2): 630 V, pitch: 7.62 mm, number of positions: 12, connection method: Screw connection with tension sleeve, mounting: Wave soldering, conductor/PCB connection direction: 0 °, color: green, Solder pin [P]: 3.5 mm. The article can be aligned to create different nos. of positions!

The figure shows an 10-position version

### Your advantages

- ✓ Well-known connection principle allows worldwide use
- ✓ Low temperature rise, thanks to maximum contact force
- ✓ Allows connection of two conductors
- ✓ Extremely small design for the respective conductor cross section
- ✓ Larger pitch for increased voltage requirements
- ✓ The latching on the side enables various numbers of positions to be combined

|---------------|--------|
| Hole diameter | 1.3 mm |
|---------------|--------|

### Packaging information

|                            |                     |
|----------------------------|---------------------|
| Type of packaging          | packed in cardboard |
| Pieces per package         | 50                  |
| Denomination packing units | Pcs.                |

### General product information

|              |                                                                                                                                                                                                                                                                                                                                                                    |
|--------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Type of note | Note on application                                                                                                                                                                                                                                                                                                                                                |
| Note         | For safe conductor connection, always adhere to a defined tightening torque. Particularly in the case of PCB terminal blocks with two or three positions, the individual solder pin for each contact point cannot compensate for this. That is why the terminal blocks must be supported during conductor connection (held with one hand, support on the housing). |

### Electrical tests

|                             |                     |
|-----------------------------|---------------------|
| Rated current               | 16 A                |
| Conductor cross section     | 1.5 mm <sup>2</sup> |
| Rated voltage (III/2)       | 630 V               |
| Rated surge voltage (III/2) | 6 kV                |

### Air clearances and creepage distances

|                                  |       |
|----------------------------------|-------|
| Rated insulation voltage (III/3) | 400 V |
| Rated insulation voltage (III/2) | 630 V |

## PCB terminal block - GMKDSN 1,5/12-7,62 - 1707137

### Technical data

#### Air clearances and creepage distances

|                                 |        |
|---------------------------------|--------|
| Rated insulation voltage (II/2) | 1000 V |
| Rated surge voltage (III/3)     | 6 kV   |
| Rated surge voltage (III/2)     | 6 kV   |
| Rated surge voltage (II/2)      | 6 kV   |

#### Standards and Regulations

### Accessories

#### Accessories

#### Labeled terminal marker

Marker card - SK 7,62/5:FORTL.ZAHLEN - 0804552

Marker card, Card, white, labeled, Horizontal: consecutive numbers 1 ... 10, 11 ... 20, etc. up to 91 ... 100, mounting type: adhesive, for terminal block width: 7.62 mm, lettering field size: 7.62 x 5 mm

## PCB terminal block - GMKDSN 1,5/12-7,62 - 1707137

### Accessories

---

#### Screwdriver tools

Screwdriver - SZS 0,4X2,5 VDE - 1205037

Screwdriver, slot-headed, VDE insulated, size: 0.4 x 2.5 x 80 mm, 2-component grip, with non-slip grip
